Sector 03, Uttara, Dhaka - 1230, Bangladesh

OBJECTIVE

Results-driven Java Developer seeking a challenging role in application development where I can leverage my expertise in Java, Spring Boot, and backend system design to build scalable, high-performance applications. Passionate about developing robust APIs, optimizing data-driven solutions, and integrating intelligent technologies to solve real-world problems. Committed to writing clean, maintainable code, collaborating in agile teams, and continuously enhancing technical and problem-solving skills.

EXPERIENCE

• Software Gaze

September 2025 - Present

Software Engineer Intern

Dhaka, Bangladesh

- Contributed to an internal office management portal, enabling secure and efficient employee management in a collaborative environment.
- Implemented role-based access control with JWT authentication, strengthening security and streamlining user access.
- Built real-time group and private chat using WebSocket, enhancing communication and collaboration.
- Designed and integrated backend APIs with frontend components, improving overall system performance and user experience.

EDUCATION

• Daffodil International University

2022 – Expected Graduation: May 2026

BSc. in Software Engineering

Dhaka, Bangladesh

- CGPA: 3.70/4.00

PROJECTS

• Smart Depot (Depot Management System) (Ongoing Project):

January 2026

Tech Stack: Java, Spring Boot, JPA, React, PostgreSQL, Git

- Developed a full-stack depot management system for tracking incoming and outgoing chalan operations
- Implemented real-time stock management with automatic updates and validation to prevent negative inventory
- Built dealer management system with deposit and due calculation integrated into each transaction
- Added product and category CRUD operations for efficient inventory control
- Designed scalable backend architecture with business rule validation and auto-generated chalan numbers

• Software Gaze(In-House Office Management Portal) (Live Project):

November 2025

Tech Stack: Java, Spring Boot, Spring Security (JWT), JPA, Docker, React, Vite, PostgreSQL, Git

- Built a full-stack office management system with secure role-based access (Spring Security JWT) and separate Admin/User portals.
- Developed employee, attendance (work hours, overtime), and expense (tracking, PDF reports) management modules.
- Integrated real-time chat (WebSocket) to enhance collaboration.
- Designed scalable backend APIs and optimized frontend integration for performance and usability.

• DevDeploy : [Joint Project]

July 2025

Tools: Java, Spring Boot, H2 Database, JWT, React.js, Python Django, Docker, GitHub, VPS

- Internal Application Deployment Portal: Automating application deployment and reducing server management complexity while implementing modern DevOps practices
- Developed the Java Spring Boot backend with JWT-based security and login/registration APIs to manage authentication efficiently
- Automated deployment workflows using Docker and VPS, simplifying server management and enabling modern DevOps practices

SKILLS

- **Programming Knowledge:** Java, Python, C
- **Frameworks:** Spring Boot
- **Tools & Technologies:** Maven, Gradle, IntelliJ Idea, VS Code, Jupyter Notebook, Overleaf, Looker Studio
- **Database Management:** PostgreSQL, MySQL, H2, Hibernate & JPA , JDBC
- **Web:** React, HTML5, CSS3, Bootstrap, Thymleaf
- **Data Science & Machine Learning:** Numpy, Pundas, Scikit learn, Matplotlib
- **DevOps & Version Control:** Git, GitHub, Docker

VOLUNTEER EXPERIENCE

- **Volunteer- Code Trap Programming Contest** *February 2024*
Software Engineering Club, DIU
 - Volunteered for the Code Trap Programming Contest, aiding in the smooth execution of the event by managing contestant registrations, providing technical assistance, and ensuring a seamless competition experience.
- **Volunteer – International Cyber Security Day** *April 2023*
Cyber Security Center, DIU
 - Contributing to event coordination by managing time schedules, assisting in program design, and supporting overall event organization and execution to ensure smooth operations.

CERTIFICATIONS

- **IBM Machine Learning With Python** – [Coursera, August 2025](#)
- **AWS Academy Graduate – Machine Learning Foundations** – [Credly, July 2025](#)

LANGUAGES

- **English:** Professional Working Proficiency
- **Bangla:** Native or Bilingual Proficiency
